DWG Role/ Legislative process

CDE - Policy implementation role, maintain neutral role, do not advocate or oppose bill without direction from board, can provide info to state legislators to better inform bill, cost to implement (i.e. staffing etc., fiscal notes included) JBC has to review cost- this can sometimes change ideal way to amended way based on cost.

*Board primarily monitoring

Pilot Update- Nancy Nelson

- Training is done and schools are reviewing data and supports for students
- 2 phases of dyslexia screening - screening “lite” followed by dyslexia-specific screening (family history, reading), then intensification phase

Working Time

Attendees worked in small groups, (for the priority areas of teacher training, educator prep, and assessment). Each small group addressed these questions:

1. What issues/ topics related to your priority area might have a “legislative fix?”
2. What advocacy groups are you aware of that are potentially either for or against that “legislative fix”.
3. What individuals/ legislators are you aware of that have interest in the legislative fix?
Does anyone in DWG have an existing relationship with this individual?
4. What issues/ topics might this group influence outside of the legislative process?

March Meeting:

- It will be held on Friday, March 3rd (10:00 a.m. - 2:00 p.m.) on Zoom
- The DWG recommended that the agenda be focused on time for committee work.
