

#### **Purpose:**

To collect planned optional measures for the AEC SPF for Alternative Education Campuses (AECs). These optional measures are not mandatory but are supplemental and add greater context to the state-required measures on the AEC SPF.

#### **Dependencies:**

School code must be associated with an Alternate Education Campus.

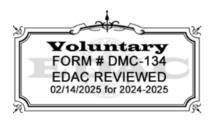

#### **Record Expectation:**

The LEA should submit 1 record per metric per school each year.

#### File Notes:

- New changes from 2023-2024 are emphasized with yellow shading.
- \*Indicates primary key
- Zero fill all non-applicable data fields
- A header row is required for .csv and .xlsx files

Code							assessment, and assignment category combination.

#### **Data Field Descriptions:**

#### **District Code**

A unique code assigned to a district by CDE. Refer to School District/BOCES Code table. School District/BOCES Code Table.

#### **School Code**

A unique code assigned by CDE to a school building. For a list of school codes, refer to "School Building Codes" (http://www.cde.state.co.us/datapipeline/org\_orgcodes).

#### **AEC Indicator**

The indicator associated with a given optional measure. All optional measures submitted must fall into one of the AEC Indicators listed below. See table below for AEC Indicator codes associated with each valid subindicator/category/metric combination.

#### **AEC Assessment**

The name of the assessment or subindicator being submitted for consideration as an optional measure for the AEC SPF. Choose from the list below of previously approved optional measures. Choosing one of the previously approved measures below does not guarantee approval of your submitted measure. CDE reserves the right to reach out with clarifying questions regarding your submitted data and collection methods. See table below for previously approved AEC Subindicator codes associated with each valid indicator/subindicator/category/metric combination.

#### **AEC Assessment Category**

The content area or specific area of interest of the assessment or subindicator being submitted for consideration as an optional measure for the AEC SPF. Choose from the list below of previously approved optional measures. Choosing one of the previously approved subindicators below does not guarantee approval of your submitted measure. CDE reserves the right to reach out with clarifying questions regarding your submitted data and collection methods. See table below for previously approved AEC Subindicator Category codes associated with each valid indicator/subindicator/category/metric combination.

#### **AEC Assessment Category Metric Code**

The metric type for your optional measure. See table below for previously approved AEC Subindicator Category codes associated with each valid subindicator/category/metric combination.

#### Reference Table:

#### Valid combinations for Indicator/Subindicator/Category/Metric with Codes

Use this table to determine the codes for the elements of a given approved optional measure for the AEC SPF. Only codes submitted with these valid indicator/subindicator/category/metric combinations are usable in Data Pipeline. The table below is sorted first by AEC SPF indicator, then alphabetically by subindicator and category within each indicator. This table is also available as a spreadsheet on the <u>AEC Collections</u> website.
