

Lower Rates of Bullying

Students in the Bullying Prevention and Education Grant (BPEG) program experience an overall 32% drop in bullying after the first 3-year grant cycle

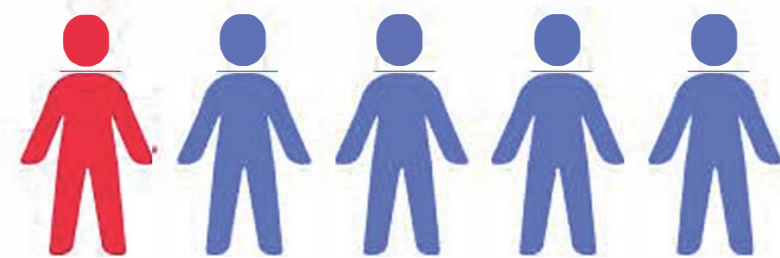

Increased Best Practices

Schools in the BPEG program double their implementation of bullying prevention best practices by the end of the first grant cycle

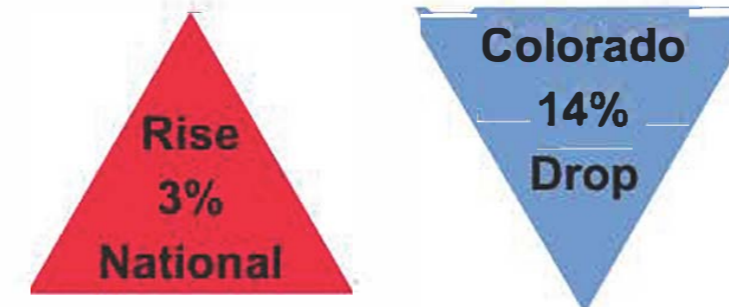

Students See Less Bullying

Students in BPEG program schools report seeing 21% fewer incidents of bullying after the first 3-year grant cycle

Colorado Outperforms Nation

Since the BPEG program began, bullying in the state of Colorado has reduced while the national rate has increased (YRBSS, 2021)*
